The Kennedy Debutante Kerri Maher 2018-10-02 "A riveting reimagining of a true tale of forbidden love."—People The captivating novel following the exploits of Kathleen "Kick" Kennedy, the forgotten and rebellious daughter of one of America's greatest political dynasties. London, 1938. The effervescent "It girl" of London society since her father was named the ambassador, Kathleen "Kick" Kennedy moves in rarefied circles, rubbing satin-covered elbows with some of the twentieth century's most powerful figures. Eager to escape the watchful eye of her strict mother, Rose; the antics of her older brothers, Jack and Joe; and the erratic behavior of her sister Rosemary, Kick is ready to strike out on her own and is soon swept off her feet by Billy Hartington, the future Duke of Devonshire. But their love is forbidden, as Kick's devout Catholic family and Billy's staunchly Protestant one would never approve their match. And when war breaks like a tidal wave across her world, Billy is ripped from her arms as the Kennedys are forced to return to the States. Kick finds work as a journalist and joins the Red Cross to get back to England, where she will have to decide where her true loyalties lie—with family or with love....

The Novel Cure Ella Berthoud 2013-10-08 A novel is a story, a collection of experiences transmitted from the mind of one to the mind of another. It offers a way to unwind, a way to focus, a way to learn about life—dis-traction, entertainment, and diversion. But it can also be something much more powerful. When read at the right time in your life, a novel can—quite literally—change it. The Novel Cure is a reminder of that power. To create this apothecary, the authors have trawled through two thousand years of literature for the most brilliant minds and engrossing reads. Structured like a reference book, it allows readers to simply look up their ailment, whether it be agoraphobia, boredom, or midlife crisis, then they are given the name of a novel to read as the antidote.

Parenting Matters National Academies of Sciences, Engineering, and Medicine 2016-11-21 Decades of research have demonstrated that the parent-child dyad and the environment of the family—which includes all primary caregivers—are at the foundation of children's well-being and healthy development. From birth, children are learning and rely on parents and the other caregivers in their lives to protect and care for them. The impact of parents may never be greater than during the earliest years of life, when a child's brain is rapidly developing and when nearly all of her or his experiences are created and shaped by parents and the family environment. Parents help children build and refine their knowledge and skills, charting a trajectory for their health and well-being during childhood and beyond. The experience of parenting also impacts parents themselves. For instance, parenting can enrich and give focus to parents' lives; generate stress or calm; and create any number of emotions, including feelings of happiness, sadness, fulfillment, and anger. Parenting of young children today takes place in the context of significant ongoing developments. These include: a rapidly growing body of science on early childhood, increases in funding for programs and services for families, changing demographics of the U.S. population, and greater diversity of family structure. Additionally, parenting is increasingly being shaped by technology and increased access to information about parenting. Parenting Matters identifies parenting knowledge, attitudes, and practices associated with positive developmental outcomes in children ages 0-8; universal/preventive and targeted strategies used in a variety of settings that have been effective with parents of young children and that support the identified knowledge, attitudes, and practices; and barriers to and facilitators for parents' use of practices that lead to healthy child outcomes as well as their participation in effective programs and services. This report makes recommendations directed at an array of stakeholders, for promoting the wide-scale adoption of effective programs and services for parents and on areas that warrant further research to inform policy and practice. It is meant to serve as a roadmap for the future of parenting policy, research, and practice in the United States.

The House on Mango Street Sandra Cisneros 2013-04-30 NATIONAL BESTSELLER • A coming-of-age classic, acclaimed by critics, beloved by readers of all ages, taught in schools and universities alike, and translated around the world—from the winner of the 2019 PEN/Nabokov Award for Achievement in International Literature. The House on Mango Street is the remarkable story of Esperanza Cordero, a young Latina girl growing up in Chicago, inventing for herself who and what she will become. Told in a series of vignettes—sometimes heartbreaking, sometimes deeply joyous—Sandra Cisneros' masterpiece is a classic story of childhood and self-discovery. Few other books in our time have touched so many readers. “Cisneros draws on her rich [Latino] heritage ... and seduces with precise, spare prose, creat[ing] unforgettable characters we want to lift off the page. She is not only a gifted writer, but an absolutely essential one.” —The New York Times Book Review

Haunted Chuck Palahniuk 2005-05-03 Haunted is a novel made up of twenty-three horrifying, hilarious, and stomach-churning stories. They're told by people who have answered an ad for a writer's retreat and unwittingly joined a “Survivor”-like scenario where the host withholds heat, power, and food. As the storytellers grow more desperate, their tales become more extreme, and they ruthlessly plot to make themselves the hero of the reality show that will surely be made from their plight. This is one of the most disturbing and outrageous books you'll ever read, one that could only come from the mind of Chuck Palahniuk.

Saving Straitsmouth Island Paul St. Germain 2020-07-20 Just off the coast of Rockport, Straitsmouth Island has enjoyed a noteworthy history that belies the island's small size. From the Pawtucket Indians who summered there more than one thousand years ago to its discovery by famous explorers Samuel de

Champlain and Captain John Smith in the seventeenth century, it has seen fishermen, shipwrecks and piracy. From 1835 to 1935, three lighthouses were built, all with fascinating stories of the keepers and their families. Thanks to tireless restoration efforts by the Thacher Island Association and Massachusetts Audubon Society, the island was opened to the public for the first time in 180 years. Local historian Paul St. Germain details the rich history of this unique New England treasure and the efforts to preserve both its structures and natural beauty.

The Book of Iowa Films Marty Knepper 2014-08-04 This is the first comprehensive history of films made in or about Iowa. It reflects some twenty years of collecting, lecturing, and talking with some of Iowa's current generation of independent filmmakers. It covers the span from 1918 to 2013 and gives important background information on dozens of high profile films such as the STATE FAIR films of 1933 and 1945, THE BRIDGES OF MADISON COUNTY, FIELD OF DREAMS, and many others. It is designed as a companion for the State Historical Society's blockbuster "Hollywood in the Heartland" exhibition in Des Moines that is scheduled to run at least through 2016. The book has an interpretive essay covering the entire history as well as paragraph length descriptions of each film. A user-friendly feature is the Index of Films, which makes it easy to locate discussions of individual films. Marty Knepper is a featured commentator on video screens in the "Hollywood in the Heartland" exhibition.

Reconomics Storm Cunningham 2020-01-09 RECONOMICS is the first book that shows how to boost economic growth and community resilience simultaneously. It also reveals the surprising factor that sabotages most revitalization / resilience efforts. RECONOMICS is THE guide to healing economies, societies and nature together! "RECONOMICS is a must-read for every mayor, resilience activist, planning commissioner and urban redevelopment professional who has been frustrated in their attempts to revitalize a place. It succinctly describes why most revitalization plans fail, analyzes what's missing, and provides a simple, easy-to-follow strategic process for success." - Kevin L. Maevers, D.Mgmt., AICP; President, Arivitas Strategies, LLC, La Quinta, CA; Vice Director of Policy, IES, California Chapter, American Planning Association. "Storm Cunningham is so far ahead of the community revitalization game, I'm in awe." - Sarah Sieloff, Executive Director, Center for Creative Land Recycling (September 2019) "RECONOMICS hits the nail on the head!" - Nalin Seneviratne, Director of City Centre Development, Sheffield City Council, Sheffield, England "Storm Cunningham's RECONOMICS Process raises the bar for community and regional revitalization. It's a powerful package, succinctly capturing the process that we have doggedly tried to identify over time, not always knowing the next step. The RECONOMICS Process brings a holistic dimension to redevelopment, inextricably linking vision and task." - Eric Bonham, P.Eng, Board of Partnership for Water Sustainability in British Columbia, Former Director, BC Ministry of Environment & BC Ministry of Municipal Affairs "Storm Cunningham is the world's thought leader on community revitalization and natural resource restoration." - George Ochs, Managing Director of Real Assets, JP Morgan. "RECONOMICS should be mandatory reading for all Mayors, Chief Executives and Directors of Planning in cities and regions." - Rick Finc, Principal, RFA Development Planning, Edinburgh, Scotland "RECONOMICS is very concentrated, highly sophisticated and stunningly accurate." - Merrit Drucker, Anacostia Waterfront Trust, Washington, DC "Storm Cunningham's RECONOMICS transformed our latest project, which uses his 3Re strategy." - Dumas F. Lafontant, Director, Lower Roxbury Coalition, Boston, Massachusetts Does your city or region have an actual process for reliably creating resilient, inclusive economic growth...or just the usual vision, plan and projects? The reliable production of ANYTHING requires a process. Everyone knows this...except most leaders of local renewal initiatives. Over 95% of community revitalization and resilience projects fail to achieve their goals, and a shocking percentage of them fail outright. The reason is the same in almost all cases: lack of a complete renewal process. There's always at least one crucial element of the process missing. Since most leaders don't know what the minimum viable process is, they can't fill the gap. In RECONOMICS, that complete strategic renewal process is revealed for the first time. It can be applied at the community, regional or national levels. If you have ANY role in improving your local future, you need to read this book. What it reveals can easily double the ROI (revitalization on investment) of your

redevelopment, renewal and climate adaptation efforts.

The Bad Guys in Mission Unpluckable (The Bad Guys #2) Aaron Blabey 2017-02-28 SOON TO BE A MAJOR MOTION PICTURE!

The Rucksack War Edgar F. Raines Jr 2016-11-19 On 25 October 1983 U.S. land, sea, and air forces, operating in conjunction with ground force contingents from several Caribbean countries, landed on the island nation of Grenada in the eastern Caribbean. Operation URGENT FURY, the code name for this intervention, marked the U.S. Army's first commitment to combat since the close of the Vietnam war. In point of fact, the amount of fighting was slight in comparison with other conflicts during the twentieth century, lacking both great intensity and long duration. The logistical effort required to move and sustain two ranger battalions and two brigades of the 82d Airborne Division, in contrast, was considerable and not without difficulty. The genesis, evolution, and eventual solution of the logistical problems, and especially their impact on combat operations on the island, make a fascinating story in their own right. These facets are particularly pertinent because of the likelihood that the Army will face other short-notice contingencies in the future in which the same or similar circumstances prevail. The Rucksack War: U.S. Army Operational Logistics in Grenada, 1983, provides an account of how Army logistics affected ground operations during the Grenada intervention and, in turn, how combat influenced logistical performance. Noteworthy is the emphasis on the role of individuals and the decisions they made based on the necessarily incomplete and sometimes misleading information available at the time during an unexpected and short-notice contingency operation. The narrative ranges from the meetings of the National Security Council, where the president grappled with the question of whether to send in troops, to the jungle environs of Grenada, where a sergeant in combat coped successfully with a Cuban ambush even though he and his men were handicapped by a lack of hand grenades. The considerations that influenced these decisions and others like them are discussed at all three levels of war-strategic, operational, and tactical. Most important, the author tells the story of the Army's operations and its logistical effort in Grenada from the joint perspective. He covers not only planning and decisionmaking by the Joint Chiefs of Staff, U.S. Atlantic Command, and Joint Special Operations Command but also coordination and communications, or lack thereof, between the service contingents in the area of operations. The result is a fascinating account of a complex event that provides insight into the myriad issues the Army encountered and will continue to face in future contingency operations. The author puts forth his conclusions on this brief but important campaign not as authoritative pronouncements but as a springboard for further professional reflection and discussion. Without question, for Army leaders, commanders, and especially logisticians, they offer instructive parallels and trenchant observations pertinent in today's complicated world.

The Mott Street Maulers Michael Teitelbaum 1986 Young Fivel Mousekewitz and his friends must figure out a way to stop the attacks of a dreaded band of cats known as The Mott Street Maulers.

Atchafalaya Houseboat Gwen Roland 2006-04-24 In the early 1970s, two idealistic young people -- Gwen Carpenter Roland and Calvin Voisin -- decided to leave civilization and re-create the vanished simple life of their great-grandparents in the heart of Louisiana's million-acre Atchafalaya River Basin Swamp. Armed with a box of crayons and a book called How to Build Your Home in the Woods, they drew up plans to recycle a slave-built structure into a houseboat. Without power tools or building experience they constructed a floating dwelling complete with a brick fireplace. Towed deep into the sleepy waters of Bloody Bayou, it was their home for eight years. This is the tale of the not-so-simple life they made together -- days spent fishing, trading, making wine, growing food, and growing up -- told by Gwen with grace, economy, and eloquence. Not long after they took up swamp living, Gwen and Calvin met a young photographer named C. C. Lockwood, who shared their "back to the earth" values. His photographs of the couple going about their daily routine were published in National Geographic magazine, bringing them unexpected fame. More than a quarter of a century later, after Gwen and Calvin had long since parted, one of Lockwood's photos of them appeared in a National Geographic collector's edition entitled 100 Best Pictures Unpublished -- and kindled the interest of a new generation. With quiet wisdom, Gwen recounts her eight-year voyage of discovery -- about swamp life, wildlife, and herself. A keen observer of both the natural world and the ways of human beings, she transports readers to an

unfamiliar and exotic place.

Transfeminist Perspectives in and beyond Transgender and Gender Studies Finn Enke 2012-05-04 Lambda Literary Award for Best Book in Transgender Nonfiction, 2013 If feminist studies and transgender studies are so intimately connected, why are they not more deeply integrated? Offering multidisciplinary models for this assimilation, the vibrant essays in Transfeminist Perspectives in and beyond Transgender and Gender Studies suggest timely and necessary changes for institutions of higher learning. Responding to the more visible presence of transgender persons as well as gender theories, the contributing essayists focus on how gender is practiced in academia, health care, social services, and even national border patrols. Working from the premise that transgender is both material and cultural, the contributors address such aspects of the university as administration, sports, curriculum, pedagogy, and the appropriate location for transgender studies. Combining feminist theory, transgender studies, and activism centered on social diversity and justice, these essays examine how institutions as lived contexts shape everyday life.

Anatomy: A Love Story Dana Schwartz 2022-01-18 *INSTANT #1 NEW YORK TIMES BESTSELLER* *INSTANT #1 INDIE BESTSELLER* *INSTANT USA TODAY BESTSELLER* *A REESE'S YA BOOK CLUB PICK* "Schwartz's magical novel is at once gripping and tender, and the intricate plot is engrossing as the reader tries to solve the mystery. She doesn't miss a beat in either the characterization or action, scattering clues with a delicate, precise hand. This is, in the end, the story of the anatomy of the human heart." - Booklist (starred review) Dana Schwartz's *Anatomy: A Love Story* is a gothic tale full of mystery and romance. Hazel Sinnett is a lady who wants to be a surgeon more than she wants to marry. Jack Currer is a resurrection man who's just trying to survive in a city where it's too easy to die. When the two of them have a chance encounter outside the Edinburgh Anatomist's Society, Hazel thinks nothing of it at first. But after she gets kicked out of renowned surgeon Dr. Beecham's lectures for being the wrong gender, she realizes that her new acquaintance might be more helpful than she first thought. Because Hazel has made a deal with Dr. Beecham: if she can pass the medical examination on her own, Beecham will allow her to continue her medical career. Without official lessons, though, Hazel will need more than just her books—she'll need corpses to study. Lucky that she's made the acquaintance of someone who digs them up for a living. But Jack has his own problems: strange men have been seen skulking around cemeteries, his friends are disappearing off the streets, and the dreaded Roman Fever, which wiped out thousands a few years ago, is back with a vengeance. Nobody important cares—until Hazel. Now, Hazel and Jack must work together to uncover the secrets buried not just in unmarked graves, but in the very heart of Edinburgh society.

A Summer of Birds Danny Heitman 2008-04 As the summer of 1821 began, John James Audubon's ambition to create a comprehensive pictorial record of American birds was still largely a dream. Then, out of economic necessity, Audubon came to Oakley Plantation, a sprawling estate in Louisiana's West Feliciana Parish. Teeming with an abundance of birds, the woods of Oakley galvanized Audubon's sense of possibility for one of the most audacious undertakings in the annals of art. In *A Summer of Birds*, journalist and essayist Danny Heitman sorts through the facts and romance of Audubon's summer at Oakley, a season that clearly shaped the destiny of the world's most famous bird artist. Heitman draws from a rich variety of sources -- including Audubon's own extensive journals, more recent Audubon scholarship, and Robert Penn Warren's poetry -- to create a stimulating excursion across time, linking the historical man Audubon to the present-day civic and cultural icon. He considers the financial straits that

led to Audubon's employment at Oakley as a private tutor to fifteen-year-old Eliza Pirrie, Audubon's family history, his flamboyance as a master of self-invention, his naturalist and artistic techniques, and the possible reasons for his dismissal. Illustrations include photographs of Oakley House -- now a state historic site -- Audubon's paintings from his Oakley period, and portraits of the Pirrie family members. A favorable combination of climate and geography made Oakley a birding haven, and Audubon completed or began at least twenty-three bird paintings -- among his finest work -- while staying there. *A Summer of Birds* will inform and delight readers in its exploration of this eventful but unsung 1821 interlude, a fascinating chapter in the life of America's foremost bird artist. It is an indispensable pleasure for birders, Audubon enthusiasts, and visitors to Oakley House.

Exit Lines Joan Barfoot 2009-02-24 The Idyll Inn, the setting for Joan Barfoot's brilliant eleventh novel, *Exit Lines*, is a pastel-hued care facility designed for seniors "with healthy incomes but varying hopes, despairs, abilities and deformities." In scathing detail, Barfoot describes the Idyll Inn's plastic plants, inoffensive art and pallid recreational activities, all familiar to any reader who has had occasion to visit such a place — or to live in one. Running the show (or so she thinks) is priggish administrator Annabelle Walker, charged with keeping the residents happy, or at least as happy as is required to keep a tidy profit flowing to far-away investors. But not all residents of the Idyll Inn choose to acquiesce. Sylvia Lodge, one of the Idyll Inn's first residents, prides herself on her steely backbone, despite crippling arthritis. Affluently widowed, she has selected the Idyll Inn as a less objectionable alternative to a perilous dwindling at home. She coolly refuses to be bossed, certainly not by Annabelle Walker (about whose family Sylvia keeps a dark secret), or by her estranged daughter, Nancy, from whom she keeps yet another, even more explosive, secret. Sylvia is determined to unapologetically lay claim to her lifetime of choices, responsibilities and blame, not yet aware that her icy solitude will shortly be broken by the company of three soon-to-be-intimate friends. Given the facility's small population, the Idyll Inn's new inhabitants are bound to have crossed paths. And indeed many have. Wheelchair-confined George Hammond, once a handsome shoe store—owner with a stay-at-home wife and adored daughter, long ago cupped Sylvia's feet in his hands and admired her well-formed calves. He has done far more with Greta Bauer, his former clerk, whose loneliness as a young immigrant widow with children rendered her available for a comfortable and seemingly uncomplicated affair. Now deposited under the same roof by absent children, the former lovers are in a position to reflect on the consequences of their choices. Completing the newly formed coterie of friends is tiny Ruth Friedman, a retired Children's Aid worker who keeps many of the city's darkest secrets, and whose passionate late-in-life marriage to fellow social worker Bernard did not include children of their own. Now also widowed, her grief unfathomably deep, she has taken to cheerfully reading horrifying news stories aloud to her new friends, who are soon to discover that these daily doses of gloom are less for their edification than they are in service of a desperate project for which Ruth needs their complicity. In the wryly funny and wholly compassionate *Exit Lines*, acclaimed author Joan Barfoot once again treats her readers to an intimate encounter with some fascinating characters engaged in the fight of their lives. Sylvia, George, Greta and Ruth are at times tender, angry, hilarious and deeply flawed, but always utterly and captivatingly human. How do we treat the elderly in our lives? How do we intend to grow old ourselves? Will we ever come to the end of longing? *Exit Lines* brings to the surface these and other fundamental questions about the nature of life, and its closing.
